

SHARP JUNETEENTH CELEBRATION EVENTS

The SHARP initiative, Sugar Hill Arts Revival Project funded through the California Arts Council, allows us to revitalize and re-imagine the Sugar Hill Arts District not only as a historic preservation site and landmark destination of African-American history, arts, activism, civic engagement, leadership, and strategic vision— but also as a site of community building and urban renewal. Our collective purpose is to honor the legacy of our ancestors while sparking a renaissance in urban Los Angeles— a rebirth or revival of art, architecture, literature, culture, style, and history. By engaging in collaborative restorative projects with key stakeholders, entrepreneurs, civic leaders, and community, we share our stories with the past as a present for our future. Join the members of our SHARP Team (AGC, GCRC, USC) to celebrate Juneteenth, black lives matter, and black liberation in a weekend series of events listed below.
