

Arthritis Is Not Color Blind: Heavy Burden, Powerful Solutions for Communities of Color

Arthritis is more than just pain. Communities of color have a greater burden of arthritis affecting daily living, work, religious and social activity, family relationships, stress levels, sleep and more. Learn about the most common types of arthritis and solutions for taking control.

March 20, 2022 - 1:30pm – 2:30pm - Virtual via Zoom

Featuring:

William Long, MD is board certified by the American Board of Orthopedic Surgery and is on staff at Cedars-Sinai Marina del Rey Hospital's Orthopedics Department. He earned his medical degree from the University of California, San Diego School of Medicine, completed an internship in General Surgery at Rush Presbyterian- St. Luke's Medical Center and then became a resident at King/Drew Medical Center. Dr. Long specializes in arthritis and joint replacement, and his current research interests include metal-on-metal hip replacement, hip replacement in young patients, computer assisted knee replacement and pain management for these types of procedures.

William Long, MD

Rev. Dr. Teoma Loeb accepted her call to ministry at age 18 and preached her first sermon at the age of 20. Dr. Loeb then embarked on an education journey, attaining a B.S. in Kinesiology from San Jose State University, where she also served as captain of their Division I women's basketball team. Rev. Loeb gained a Physical Therapy degree from Howard University and went on to pursue her Master of Divinity degree from Candler School of Theology at Emory University – where she realized the necessity of combining her faith with her professional goals.

Rev. Dr. Teoma Loeb, PT, DPT, MDiv
